Online services

 Listen 

View the full list of **online services**.
For personalized services and information access My UnTO.

[➤ All online services](#)

[➤ MyUniTO](#)

This section is intended for both occasional users, as it provides an overview of all the main university online services, and habitual users who need to find out what services are available online, besides those highlighted after authentication.

After authentication, in fact, habitual users of the University website can access "My UniTO" dedicated areas and find out personalized services and information. Some specific services may not be included in the list, as linked to specific users or specific areas. As the online services are constantly improved, this section is regularly updated.

To receive further clarification or additional information about the services offered by the University, please follow the instructions suggested in [References, contacts, complaints and feedback](#).

For further information, feedbacks or if any problem occurs, please contact: redazioneweb@unito.it.

MY UNITO ACCESS

PhD Students SCU credentials: Once you registered in the university, you receive all the informations about your SCU credentials

Email: name.surname@unito.it

PW: Yourcho1ce!

Older UniTo students still have name.surname@edu.unito.it

Using these credentials **will not** give access to all services for UniTo personnel (more than for students)

GOOGLE EDUCATION SERVICES

Once registered as UniTo personnel, you will have right to all **Google education services** including:

- unlimited space disk on **Google Drive** (institutional, not personal);
- **Google mail**;
- other Google services as **calendar**, tasks, etc.

GOOGLE EDUCATION SERVICES

The PhD programme managers have another UniTo Google account mailaddress: dottorato.csls@unito.it

In the associated UniTO Drive, the managers will set-up **your personal folders**, in which common documents as Reports, Certificates etc., will be inserted and accessible to you and the staff.

Please note that you will have access to your institutional folders only when you are identified as UniTo member (you will not have access if you are logged in Google as pincopallino@gmail.com or any other service).

Therefore, go to UniTO, login, then find Services in the banner and access from there.

GOOGLE EDUCATION SERVICES & ICT STAFF

Advanced Users:

You may also install and run the corporate Google Drive File Stream (similar but different from Google Backup and Sync), but note that **it may be difficult to run it on the same computer together with your personal Drive Folder.**

Consider using only UniTo drive for all your work !

ICT Staff:

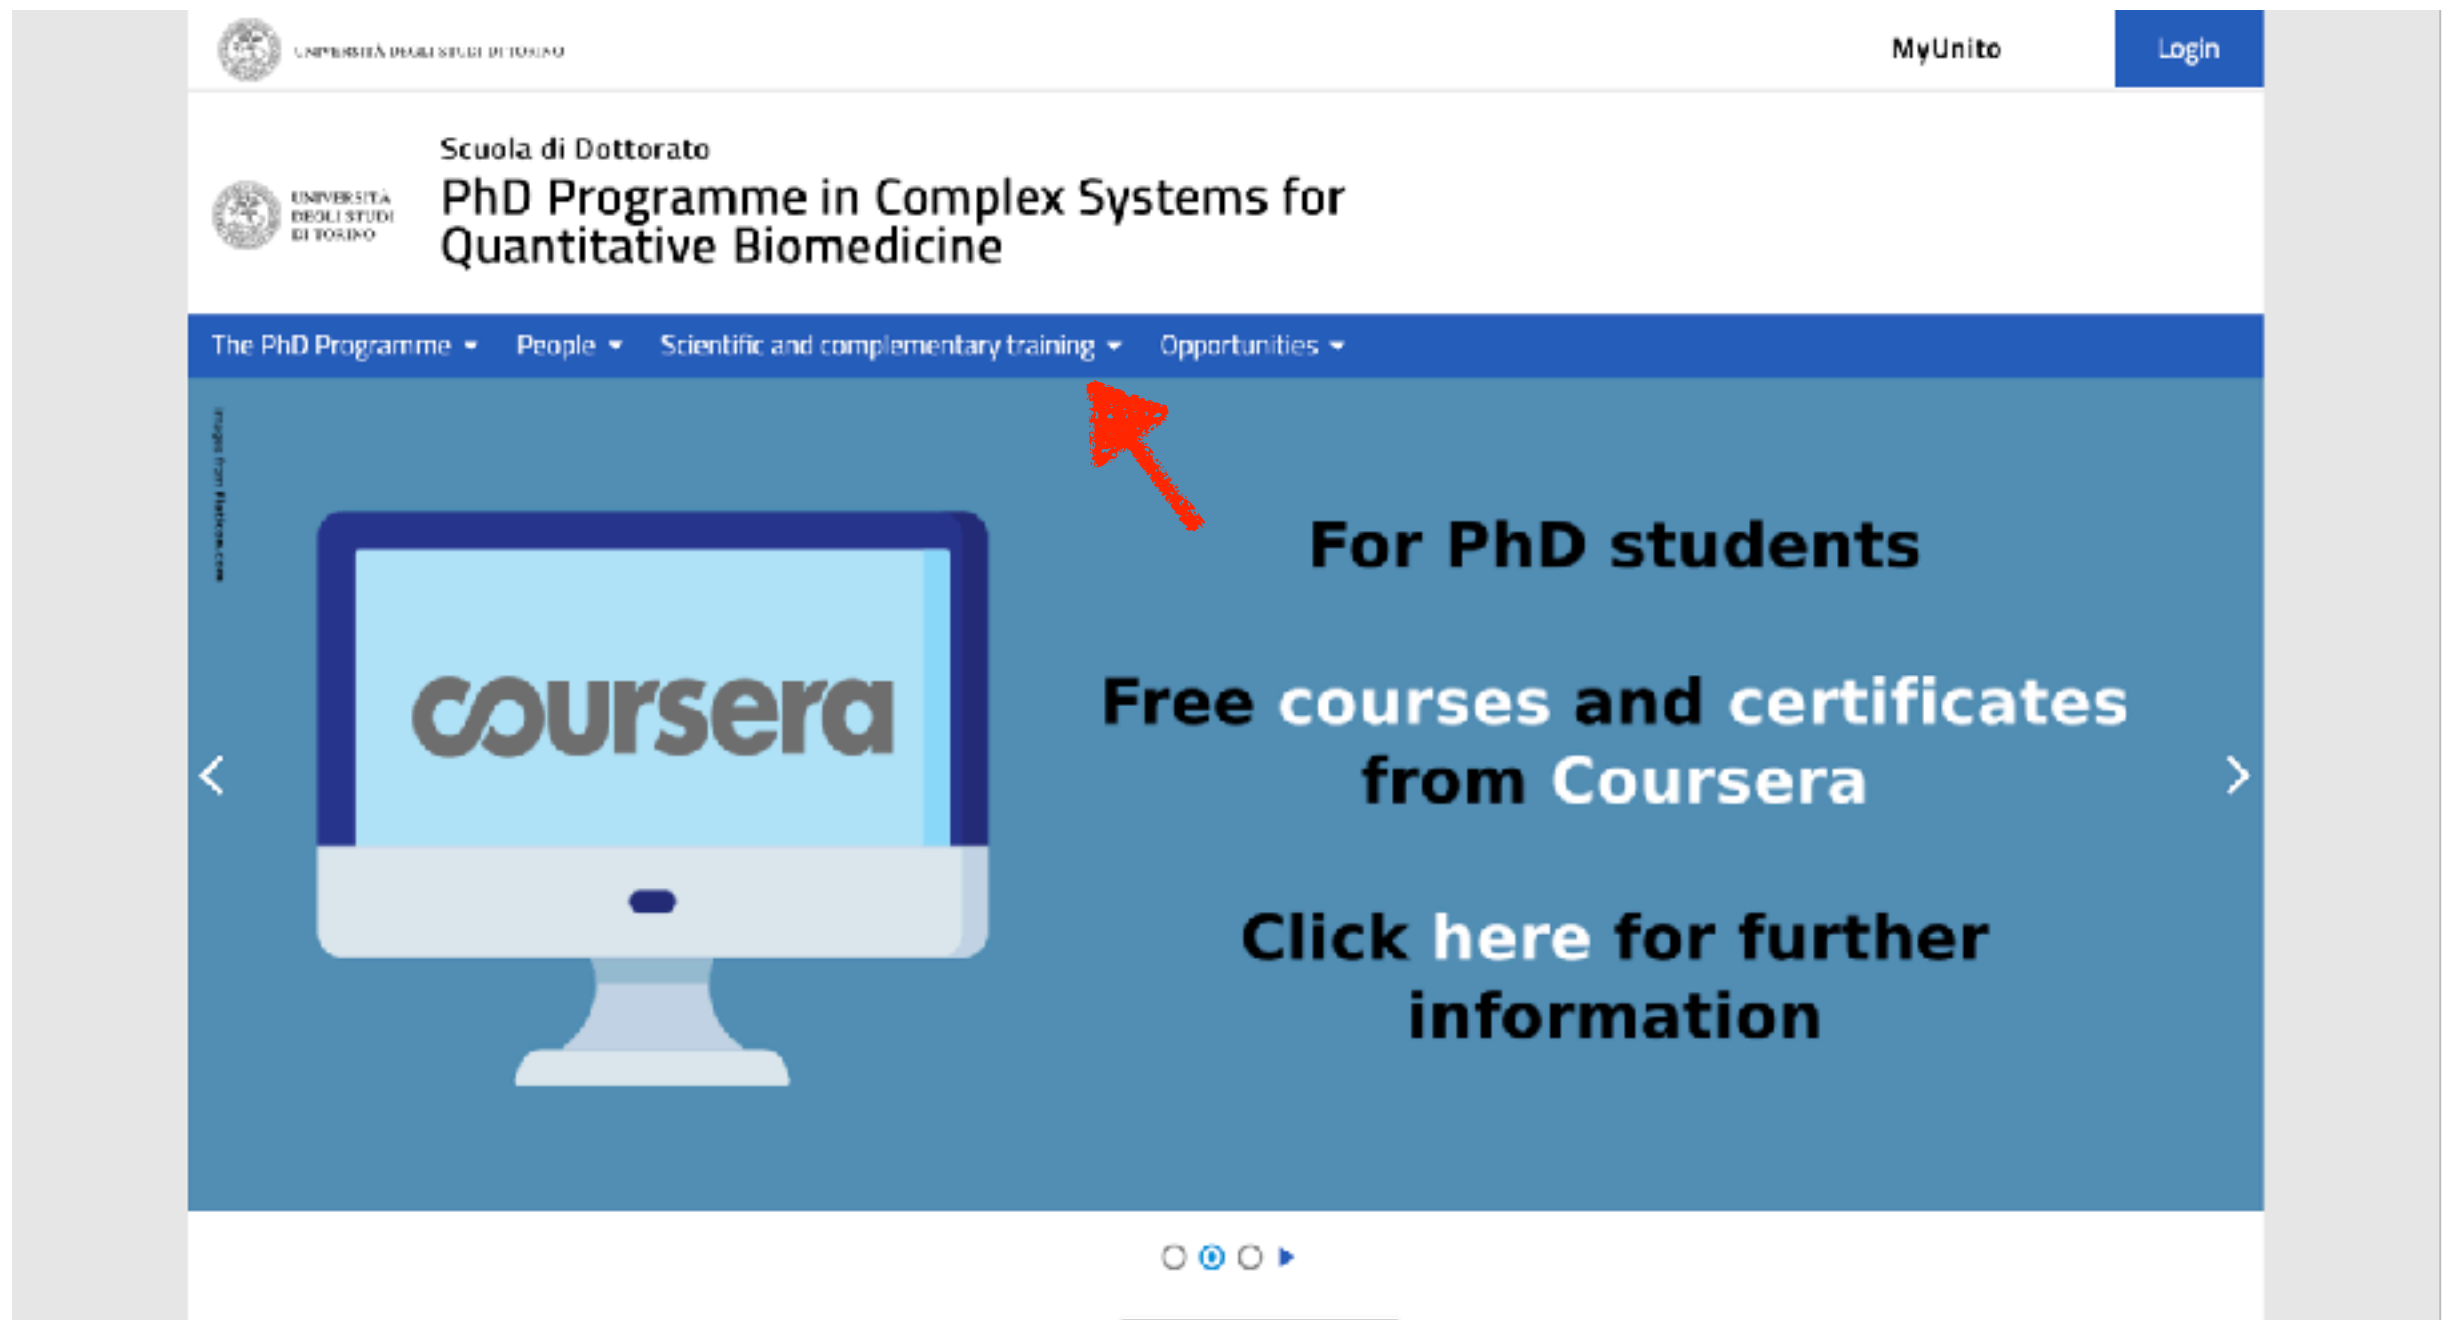

Ask your Tutor the names and addresses of the **ICT staff** in the Department where you work or you are affiliated with (for external students).

They will help you solving problems.

Coursework
Courses archive
Alumni Day
Annual/Final Reports

For PhD students

**Free courses and certificates
from Coursera**

**Click here for further
information**

SCIENTIFIC AND COMPLEMENTARY TRAINING:

Introductory Courses: mandatory for first year students

Biological Students:

Introduction to Bioinformatics,
Mathematical and Numerical Methods for Life Sciences

Quantitative Students:

Introduction to Biochemistry
Introduction to Cell Biology
Introduction to Cell Physiology
Introduction to Molecular Biology

All Students:

Statistical Inference and Machine Learning
System Biology

Timing: to be setup with your Profs, but generally «before» Courses

SCIENTIFIC AND COMPLEMENTARY TRAINING:

Courses: Mandatory for first, second and third year students

- Cell Biology and Physiopathology,
- Data analysis, AI and machine learning
- Genomics and complexity in medicine

Other training activities: Mandatory for first, second and third year students

- Journal Club
- Alumni day

Annual Reports: Mandatory for first, second and third year students

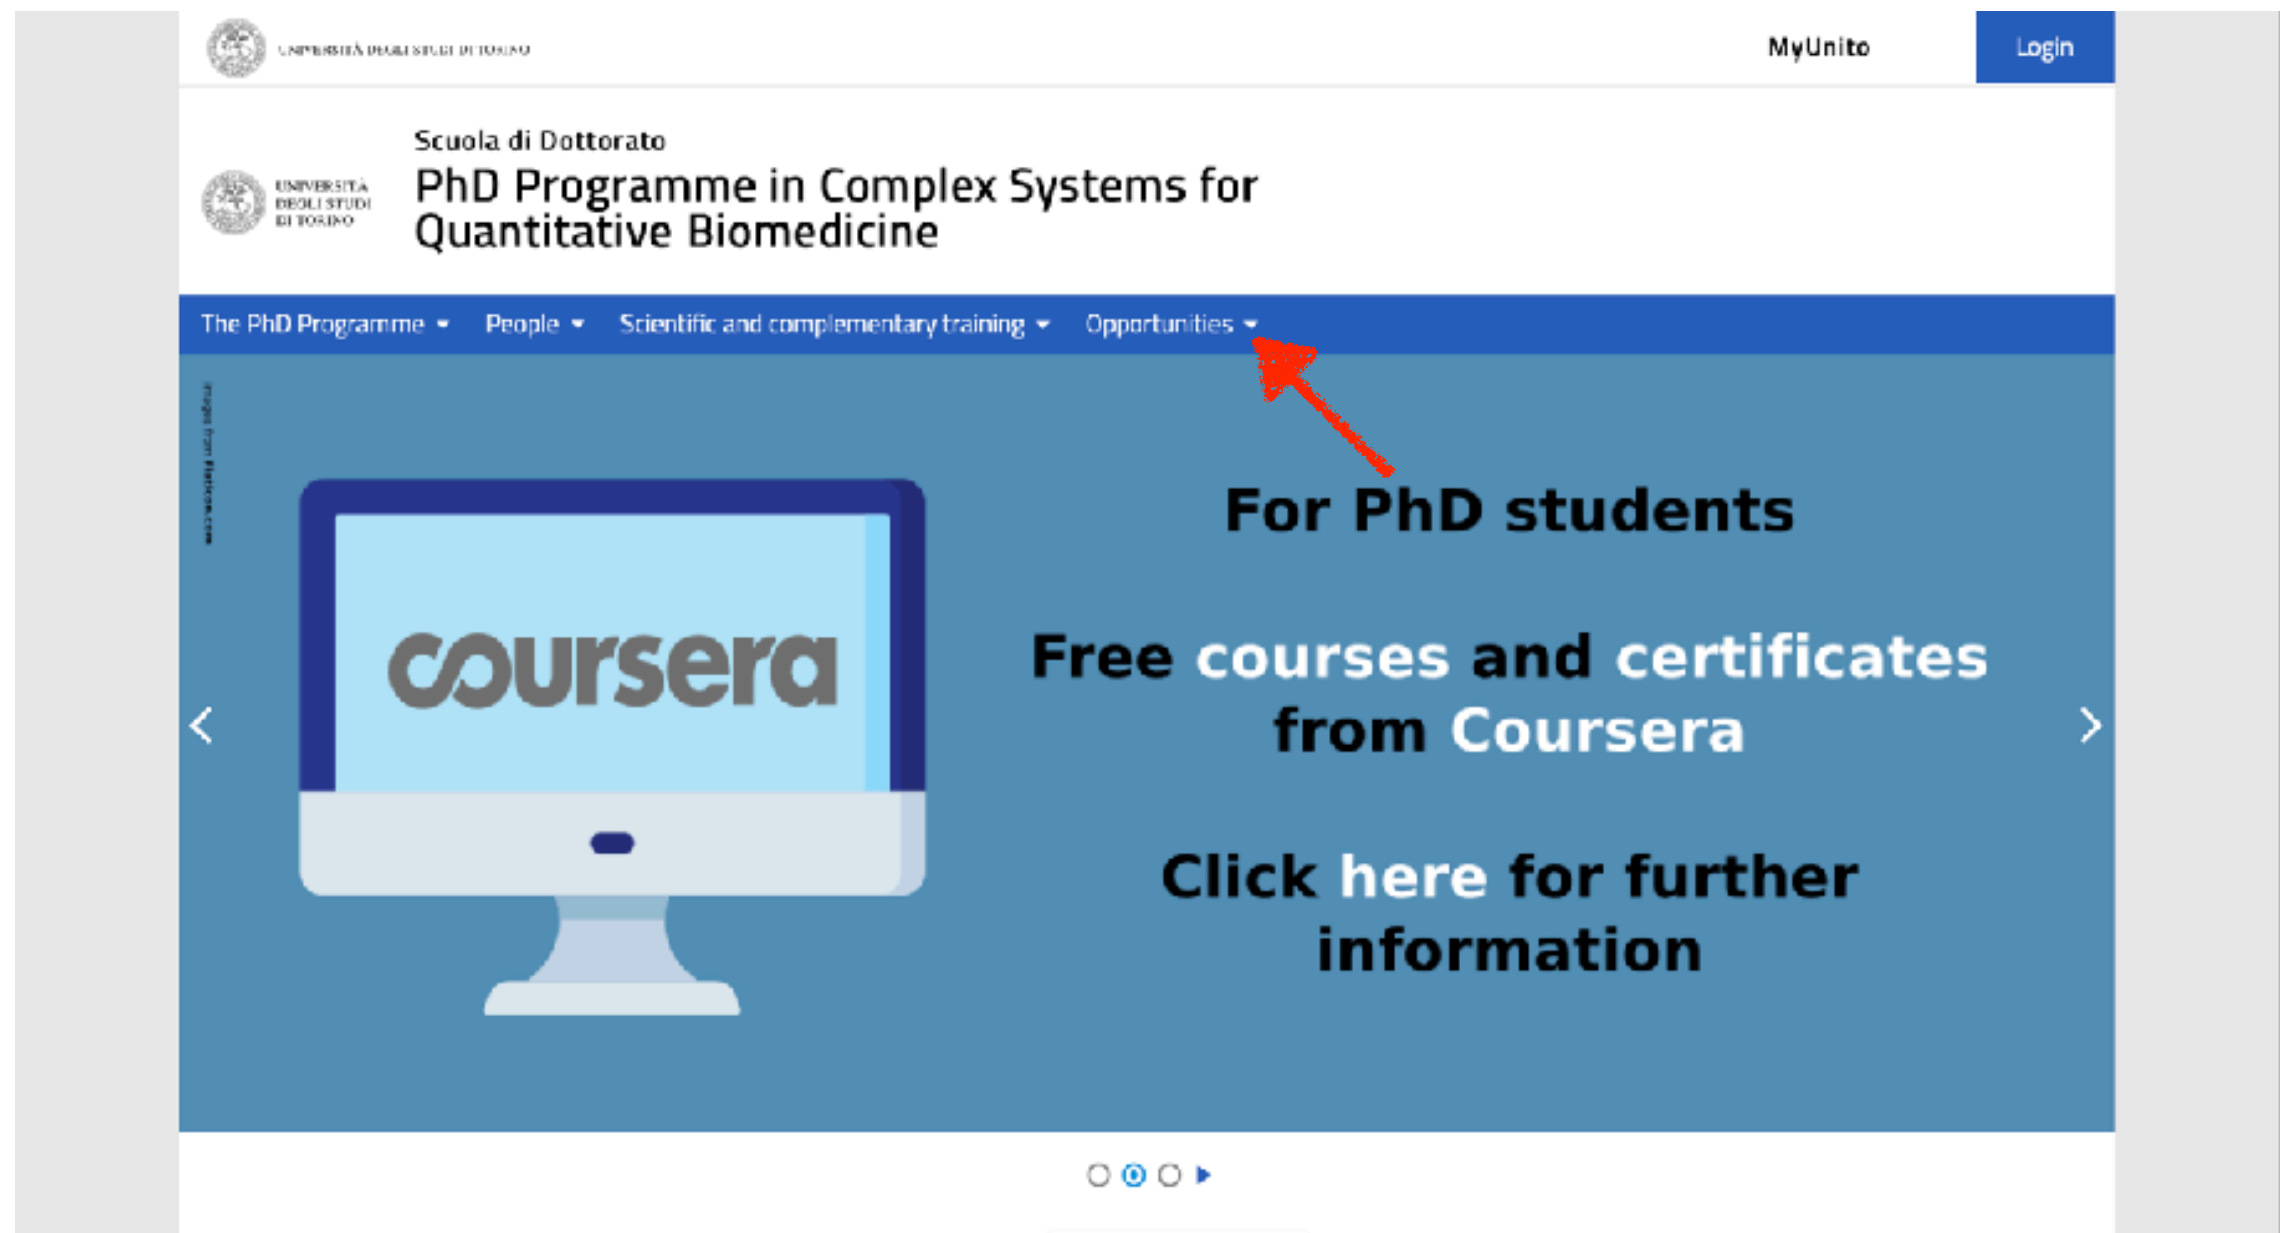

Every year, in **July/September**, Students will report their advancements with both a **written report** and a **Presentation** (oral).

You will be given a **LogBook** of these activities to collect Teachers' signatures: you are expected to reach a minimum number of credits.

OPPORTUNITIES DATABASE

The PhD Programme has set up a **database** containing opportunities for

- visiting fellowships (i.e. spend **part of your PhD project abroad**);
- academic and non-academic **post-doctoral opportunities**.

OPPORTUNITIES DATABASE

The PhD Programme has set up a **database** containing opportunities for

- visiting fellowships (i.e. spend **part of your PhD project abroad**);
- academic and non-academic **post-doctoral opportunities**.

The screenshot shows the website of the Scuola di Dottorato PhD Programme in Complex Systems for Quantitative Biomedicine. The top navigation bar includes 'The PhD Programme', 'People', 'Scientific and complementary training', and 'Opportunities'. The 'Opportunities' dropdown menu is open, showing 'Job Placement', 'After the PhD', and 'Opportunities database for PhD students', with a red arrow pointing to the last option. The main content area features a large blue banner with a computer monitor displaying the Coursera logo, the text 'Free courses and certificates from Coursera', and a link 'Click here for further information'. The University of Turin logo is visible in the top left corner.

The screenshot displays the website for the PhD Programme in Complex Systems for Quantitative Biomedicine at the University of Turin. The header includes the university logo and name, a 'MyUnito' link, and a 'Login' button. A search bar contains the text 'in:tesi'. A blue navigation bar lists: 'The PhD Programme', 'People', 'Scientific and complementary training', and 'Opportunities'. Below this, a breadcrumb trail reads 'Home / Thesis, internship and work placement offers / Search results'. The main content area lists four travel grant opportunities, each with details on type, availability, location, and teacher. A right-hand sidebar titled 'Thesis, internship and work placement offers' contains links for 'All thesis offers', 'New thesis offers', 'Sort by starting date', and 'Browse by type', with a red arrow pointing to the last option.
